International Conference on Calcium Aluminates 2026

More details available at: <https://calcium-aluminates-conference.org/>

The conference aims to bring together the leading minds from Academia and Industry working in the field of Calcium Aluminates to address scientific progress as well as the global challenges of sustainability and the environment.

Calcium Aluminates 2026 is the sixth conference devoted to the science and application of calcium aluminates.

We extend a warm welcome to the global calcium aluminate community to participate.
